Incident Date: December 2023 (raid and siege)

Fatalities: UNK

Injured: UNK

Aggressor(s) Profile: Israeli Defense Forces (IDF); numbers UNK

Victim(s) Profile: Palestinian patients, staff, and sheltering civilians.

Kamal Adwan Hospital served northern Gaza during intense fighting and was raided amid claims of militant activity. Operations severely disrupted medical services and led to deaths among patients and civilians sheltering on site.

Witness material in the Gaza report describes arrests of staff, movement restrictions, and bodies accumulating in courtyards. With morgue capacity exceeded, temporary burials occurred near structures within the hospital compound. Imagery shows localized destruction and ground disturbance consistent with hasty burial pits.
