Published: July 26, 2025 by Palestine Desk

Updated: September 30, 2025

Incident Date: 2024

Fatalities: UNK

Injured: UNK

Victim(s) Profile: UNK

Aggressor(s) Profile: Israeli Defense Forces (IDF) air/ground operations; UNK munitions

Sheikh Radha Mosque was struck during urban operations, with reports of casualties and subsequent on-site burials or body staging due to access constraints.

The report aggregates photos and testimonies indicating bodies recovered from mosque vicinity under fire conditions. Local responders conducted rapid burials to prevent decomposition and because cemeteries were inaccessible. Imagery indicates blast damage patterns and debris fields around the mosque footprint.
